

# Volunteer with Caris Healthcare

## Make a Difference in Many Lives

There are hundreds of quality volunteer opportunities at Caris Healthcare. Few of them compare to the sheer joy you feel, the impact you can have, the personal growth you experience when you become a hospice volunteer at Caris Healthcare.

### Special Projects Volunteers

If you love to sew, knit, crochet, needlepoint or work with fabric ...

If you love to share your talent and creations with those who cherish a bit of hand-made love ...

You can make a difference in the lives of our friends and neighbors with a life-limiting illness.

Caris Healthcare is seeking volunteers with creative talent to share with our patients!

Please give a little of your time to someone whose own time is limited.

### What is Hospice?

Hospice is a special way of caring for people with a life-limiting disease. Hospice provides physical, emotional and spiritual care to the terminally ill and their families.
